

Customer Sales Analysis Report

Week 5 Project

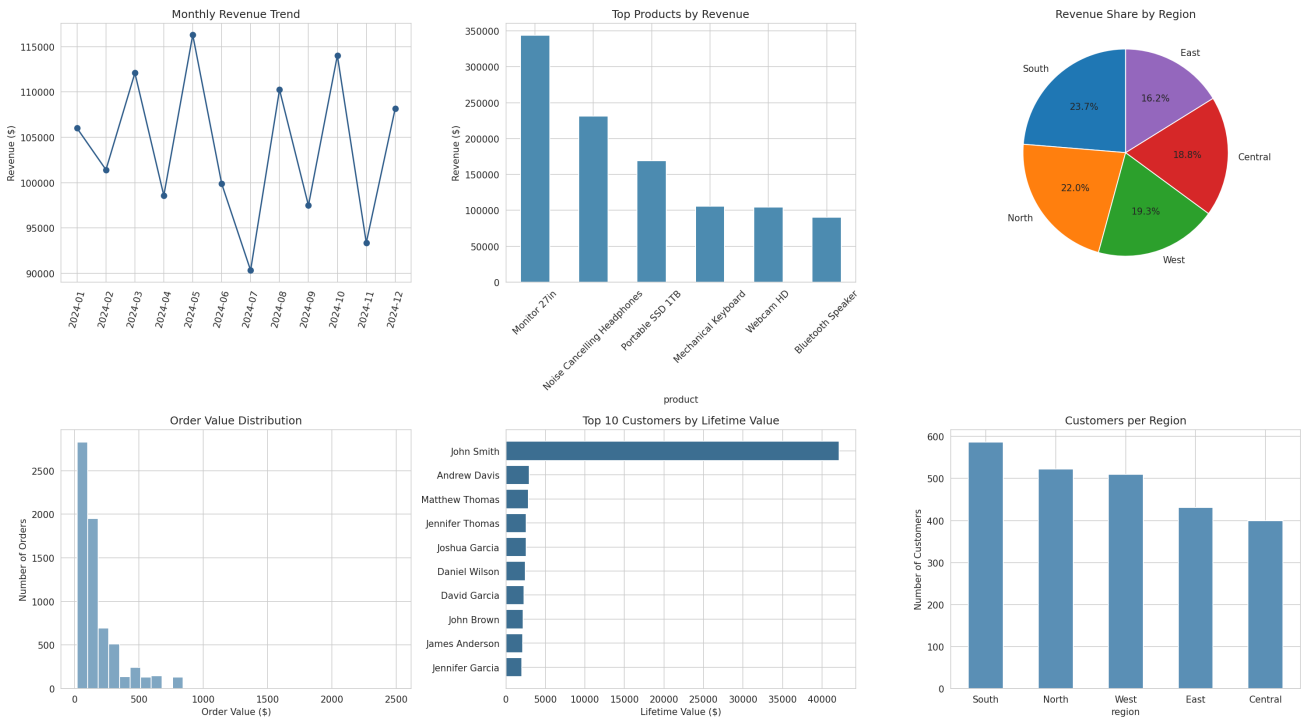

Key Metrics

- Total Revenue: \$1,247,870
- Total Customers: 2,450
- Average Order Value: \$184
- Top Customer: John Smith - \$42,168

Executive Summary

The business generated strong overall revenue across a broad customer base, with a small group of high-value customers contributing disproportionately to total sales. Revenue is fairly distributed across regions, and a handful of products drive the majority of revenue, while lower-priced accessories drive most of the unit volume.

Dashboard

Business Recommendations

- Prioritize top-tier customers with a loyalty or VIP program for the highest lifetime-value accounts.

- Double down on best-selling products by aligning inventory and marketing budget accordingly.
- Target underperforming regions with focused marketing campaigns to close the revenue gap.
- Improve retention through follow-up campaigns or discounts aimed at one-time purchasers.
- Bundle frequently co-purchased products as cross-sell offers.
